

Setting up a Homework Page in Centricity™

About the Assignment Page

OVERVIEW:

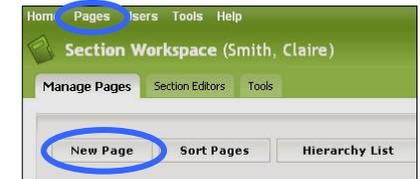

The *Assignment Page* offers teachers and other educators the ability to organize assignments in a user-friendly manner within his or her own sections. Define unique categories for each assignment, assign due dates, and add detailed descriptions for each assignment if desired. Assignments can also be posted on the calendar in that section. Visitors to the page can view assignments based on the chosen category or associated due date.
